

GIVE TO HAITIAN-LED SOLUTIONS

“Men anpil, chay pa lou.”
(Many hands make the load lighter)

PUT RESOURCES WHERE THE KNOWLEDGE ALREADY LIVES

ACT invests in Haitian-led organizations and communities working to build solutions around their own priorities. Our grantmaking focuses on three interconnected pillars—**Civic Education, Environmental Stewardship, and Entrepreneurship**—and combines funding with the capacity, technical support, monitoring, and learning needed to build stronger organizations and lasting impact.

Your DAF investment puts philanthropic capital behind Haitian ideas, Haitian organizations, and Haitian leadership.

THREE PILLARS. ONE VISION.

CIVIC EDUCATION

Invest in community leadership, civic participation, public stewardship, and opportunities for Haitians to shape their communities.

ENVIRONMENTAL STEWARDSHIP

Support locally led solutions that protect Ayiti's natural resources, strengthen climate preparedness, and create sustainable livelihoods.

ENTREPRENEURSHIP

Invest in entrepreneurs, organizations, and communities building businesses, livelihoods, and stronger local economies.

MORE THAN A GRANT

ACT's program grants can provide:

1

CAPITAL

Resources Haitian-led organizations and communities need to put ideas into action.

2

CAPACITY

Technical and organizational support that helps partners build stronger, more sustainable institutions.

3

MONITORING, EVALUATION & LEARNING

Data, field engagement, and accountability systems that help us understand what is working

GREATEST PROGRAM NEEDS

Flexible resources that allow ACT to respond to strong opportunities across our portfolio.

4

EXAMPLE PROGRAM

FANM DJANM : INVESTING IN WOMEN, INVESTING IN COMMUNITIES

On La Gonâve, ACT grantee **Rasin Devlopman** is expanding what is possible for women through Fanm Djanm—"Strong Women" in Kreyòl. The locally designed program starts from a simple belief: **Haitian communities already hold the knowledge and ideas to shape their own futures.**

Through four initiatives, women are gaining practical skills, greater mobility, confidence, and new pathways to economic independence:

Fanm Djanm Workshops —
Building leadership, confidence, and community participation.

Fanm K ap Kondwi —
Putting women in the driver's seat through motorcycle training and greater mobility.

Yon Fanm, Yon Metye —
Opening doors to trades traditionally dominated by men.

Fanm K ap Plante —
Building agricultural skills and supporting women growers

Motorcycle Driving Practice

FROM PASSENGER TO DRIVER

After participating in Fanm K ap Kondwi, Frantzcesca Jacques no longer needs to pay a driver to make deliveries or accompany her for fieldwork. **Greater mobility has meant greater independence—and greater opportunity.**

ACT didn't create Fanm Djanm. **Rasin Devlopman did.** ACT's investment helped them expand what they had resources behind **Haitian leadership, local knowledge, and locally designed solutions.**

“

Mwen grandi ekonomikman, pwofesyonèlm an e sa ban m plis konfyans tou kòm fanm .

”

"I grew economically and professionally, and it also gave me more confidence as a woman."
