

BUILD A FOREVER FUND: **FOR AYITI**

“Piti piti, zwazo fè nich li”
(Little by little, the bird builds its nest.)

WHAT IF OUR GIVING **NEVER** HAD TO END?

For generations, philanthropy in Ayiti has depended heavily on resources that originate elsewhere—and on funding that can disappear as quickly as priorities change.

ACT is building something different.

The **Ayiti Community Trust Endowment** is a permanent fund dedicated to generating long-term resources for Haitian-led organizations and communities. Gifts to the endowment are invested rather than immediately spent, allowing the fund to grow and generate resources that can support ACT's mission year after year.

ACT calls it our Forever Fund: a sustainable source of funding for Ayiti that grows over time. The endowment is held with the trusted stewardship of The Miami Foundation.

What if more of the resources needed to build Ayiti's future came from wealth we had intentionally set aside to sustain it?

That is the promise behind ACT's endowment: building a permanent pool of philanthropic capital dedicated to Ayiti, so that each generation is not forced to begin again from zero.
